Peacock's Descriptive Trade List

FOR SPRING OF 1899.

Cluster of Nymphæa Dahlias.

N PRESENTING our new Descriptive Trade List for 1899, we wish to thank our friends and customers for their generous patronage in the past, and to assure them of our prompt and careful attention to all future favors.

We make a specialty of Dahlias, and have the largest and finest collection in America. Last season we grew over 31 acres of this "grand old garden

favorite." In the last three years we have received

46 First Prizes and First Awards.

more than four times as many first prizes as were received by all our competitors combined —an unprecedented record.

Our Dahlia Farm is located at Atco, N. J., U. S. A., on the West Jersey and Seashore division of the Pennsylvania R. R., 19 miles from Philadelphia, Pa. We cordially invite all interested in Dahlias to visit our fields while they are in bloom, especially during the month of September, when field after field shows solid masses of exquisite color.

SPECIAL NOTICE TO SEEDSMEN AND FLORISTS.

We do not sell at retail, but grow the finest and best Dahlias in large quantities for the whole-sale trade, and make a specialty of supplying seedsmen and florists with large, well-ripened roots true to name. MR. W. P. PEACOCK, Atco, N. J.

Dear Sir: Please mail your newest catalogue to me.

* * I wish to say to you that the Dahlias that I got
from you last year were most beautiful. I treated them
the way you advise in your book. I grew them with one
stem, and had grand success as to size of flowers and
colors. If there is anything new please let me know, as I
want to have it. * * * I think I visited my Dahlia
patch three times a day last summer, and I assure you that
they had good treatment. I sent several bunches of exceptionally fine flowers, all without fault, to four of our
largest gardeners, and none of them had seen such flowers largest gardeners, and none of them had seen such flowers before.

Yours truly,

B. LEIDERSDORF.
